The Access to COVID-19 Tools (ACT) Accelerator is a new, groundbreaking global collaboration to accelerate development, production, and equitable access to COVID-19 tests, treatments, and vaccines. The ACT-Accelerator brings together governments, scientists, businesses, civil society, philanthropists and global health organizations.

The ACT-Accelerator has a particular focus on ensuring equitable access to high quality health products in low- and middle-income countries.

This session, hosted by FIND, The Global Fund, and GFAN, will update participants on the work of ACT-Accelerator, and identify ways communities and civil society organizations (CSOs) can participate in this innovative initiative.

Opening remarks and welcome by moderator
Rosemary Mburu – Moderator, CEO WACI Health

Overview of ACT-Accelerator, including accountability structure and principles for CSO engagement
Bruce J Aylward – Assistant Director-General WHO, lead for the Support Hub to the ACT-Accelerator Facilitation Council

ACT-Accelerator Diagnostics Partnership
Update on the work of the Diagnostics Partnership, roles played by civil society in working groups and opportunities for engagement, with short presentations by:
- J Carolyn Gomes – Member of the Developing Country NGO Delegation to The Global Fund board and member of R&D for the new tests digital tools working group of the Diagnostics Partnership
- Emma Hannay – FIND, Special Advisor for the Diagnostics Partnership
- Katy Wright – GFAN coordinator and participant in the Diagnostics Partnership

ACT-Accelerator Health Systems Connector
Update on work of the Health Systems Connector and the roles played by civil society in the working group and opportunities for engagement, with short presentations by:
- Javier Hourcade Bellocq – Member of the UHC2030 Steering Committee and Civil Society Engagement Mechanism (CSEM)
- Kate Thomson – Head of Community, Rights and Gender Unit, The Global Fund
- Robin Montgomery – Board Member, Developing Country NGO Delegation and interim CSO representative for the Health Systems Connector

Facilitated Q & A
